PT 10 Commercial Treadmill

Steelflex PT10 treadmill is the one of the finest examples of commercial cardio equipment designed. The concept of the PT10 treadmill is one of style, high efficiency and eco-friendly design. 4HP ECO-AC server motor can save up to 40% energy consumption compared to traditional powered treadmills, and 98% of the materials used in making the PT10 are recyclable. 'Reverse' function can help rehab users with training in 'side' and 'backward' walking. The long handrail design provides the complete user protection.
